

Business Continuity Policy Statement

SSTL is implementing a Business Continuity Management System (BCMS) to minimise the impact of disruptions on its critical activities and provide an acceptable level of services until normal operations are resumed. Through this policy, SSTL commits to integrate Business Continuity Management into its operational and management practices to promote a culture of resilience and ensure acceptable level of delivery of key services to its customers.

This shall be achieved by adopting global best practices viz. ISO 22301 and developing competency within the organization.

All employees, business partners, and third parties of SSTL shall make themselves aware of this policy and comply with the same.
